To Our Valued Customers:

At Livingston & Haven, LLC, one of our Core Values and Beliefs is that we are committed to being a responsible member of the community. As such, we support the overall objective of Section 1502 of the Dodd-Frank Wall Street Reform and Consumer Protection Act. Section 1502 is designed to require certain publicly traded companies to disclose their use of conflict minerals that originate in the Democratic Republic of the Congo (DRC) or an adjoining country.

Many of you, our valued customers, are also responding to this new legislation and are inquiring with us about whether the products that we provide you contain an amount of the minerals: Columbite-tantalite, Cassiterite, Wolframite or Gold (the 3TG's) and, if so, are the sources of those minerals "conflict-free".

Livingston & Haven does not manufacture the products that we provide to you; we are the distributor for those products. Accordingly, we believe that the best way for us to address your requests is to provide the official response of each of the manufacturers that we represent. On the following pages of this letter you will find either Internet web links to each manufacturer's response to this issue or a copy of the manufacturer's official statement. If a manufacturer is not listed, then we have not received an official response from them and we continue to work towards that end.

Thank you for your understanding as we work together to address this effort.

Best Regards,
